Calcutta Auction Held

Out-of-town Rinks Take Honors in Curling Jackpot

After 20 hours of tough curling winners were decided in the exciting 16-rink jackpot 'spiel' held at the Vulcan curling rink on Sunday, Jan. 15.

Out-of-town rinks won both sections of the draw when Rene Demer's foursome from the Calgary Glencoe Club won over John Wolfe's Legion rink in the final of "A" Section and took home top money of \$100. In "B" Section final Morgan Johnson of Pincher Creek edged Audrey Gore of Milo.

But the many spectators who viewed the proceedings throughout the day (and some who stayed through most of the night) were not so interested in who won the curling, but who bought who, for how much, and how much did they win. This all resulted from the Calcutta auction held after all teams had played one game and all rinks were 'sold' to the highest bidder. Top prices were paid for the rinks of Carlisle of Calgary and Watson and Wolfe of Vulcan. Top winners of the auction were the combined talents of Boyd McKay-Harris Matlock, Cliff McAskile-Glen Gorbous and

Frank Fletcher-Ivan Haga.

Success and failure were the results of two other playoffs on Monday, involving Vulcan rinks. The successful venture went to the Vulcan ladies rink of Mary Haga, Gwen McKay, Ethel Banks and Vonnice Watson who won two games over the Milo rink skipped by Donna Armstrong to win District 6 playoffs and advance to the Southern Alberta ladies playoff at Red Deer on Jan. 24 to 26.

The failure story was the loss of two games by the John Wolfe Legion rink to the Scott Ellis foursome of High River in the Legion Zone Playoffs. Last year the Wolfe rink won the Legion provincial title and the year before the same honors were won by the Ellis rink.

Five Vulcan rinks are taking part in the Champion Men's Bonspiel this week and at the end of the week starting Friday night the Vulcan ladies bonspiel takes place with an entry of 20 rinks.

The Vulcan Men's Bonspiel will be held Feb. 20-24.

On To Lethbridge Jan. 26

The CCHS rink of Robert Letal, skip; Richard McNeiven, third; Bill Horne, second and Tom Green, lead, are champions of District 6 in the Southern Alberta High School playdowns.

Their win came at the expense of the Carseland rink Tuesday night at the Vulcan Curling Rink. Three rinks, CCHS, Carseland and Blackie began play with three games last Sunday in which Carseland took the "A" Event sending Vulcan into the B Event. In modified double-knockout play CCHS had to win two games from Carseland and Tuesday's single game gave them the honor.

On Jan. 26, the boys go to further competition at Lethbridge with the possibility of a shot at the provincial title if they are successful in the south.

Harris Matlock is convenor for District 6.

ABORTION LOSSES IN CALVES AND LAMBS

Any County farmer who has trouble with abortions in his cattle or sheep would be wise to submit the dead fetus to the Lethbridge diagnostic laboratory for examination.

Although the majority of abortions in both cattle and sheep result from injury, lack of vitamins or minerals, or a hormone imbalance, there is always the possibility that the problem is being caused by a specific infectious disease. Dr. W. N. Harries, Head of the Lethbridge Laboratory, has pointed out that it is in the best interest of all concerned to have aborted fetuses examined at a laboratory. An accurate diagnosis will enable the owner to take the necessary steps to rectify the situation and will keep the Veterinary Services Division up-to-date on the existence and prevalence of infectious forms of abortion.

In cattle, brucellosis was the most common cause of infectious abortions until the brucellosis eradication program was inaugurated. Now that disease has been replaced by vibriosis. The most common causes of abortions are not infections.

Vibriosis infection is also a serious disease in sheep, but it cannot be transmitted to sheep from cattle or visa versa. In sheep the infection probably occurs through the animals eating such material as after-birth or aborted fetuses rather than through mating. Also, most of the aborted fetuses are fully formed. Since vibriosis was diagnosed in four Southern Alberta flocks last winter, the Lethbridge Laboratory staff are anxious to obtain information on its prevalence this year.

Virus abortion, another sheep disease, produces late fetus expulsion or lambs which die shortly after birth. It is known to exist in Montana, probably on a fairly wide scale, but the extent of its existence in Alberta is not known. Consequently, the provincial diagnostic laboratories are interested in obtaining suitable material for examination.

Dr. Harries says fetus submission can be made either through a veterinarian or directly to the laboratory. He stresses that for an accurate diagnosis, the fetus should be either fresh and clean or frozen. In the case of lambs, the fetal membranes should be included with the submission because they are necessary for diagnosing virus abortion. For further information, get in touch with our local

Veterinarians or this office.

FERTILIZING HOUSE PLANTS

For those of us who don't have livestock problems, let's see what P. D. McCalla, Supervisor of Horticulture with the Alberta Department of Agriculture has to say. Too much fertilizer is much more harmful than too little.

A plant may need fertilizing after it has been growing in the same soil for a few months. Some of the soil nutrients will have been used by the plant and some will have been lost through leaching if the plant was watered from the top.

Continuous heavy applications of fertilizers, says Mr. McCalla, tend to build up an accumulation of fertilizer salts in the soil. A slight excess of these salts stunts growth of the plant because the roots are not able to absorb highly concentrated fertilizers. An extreme excess injures the roots and kills the plant.

The most convenient way to fertilize house plants is to use chemicals in powder, liquid, or tablet form. They all contain the three main elements; nitrogen, phosphorus, and potassium. When buying fertilizers, beware of exaggerated claims. There is no such thing as a magic formula, nor is there likely to be a "secret" element that will make the plants bloom better. Any fertilizer in the ratio of 5% nitrogen, 10% phosphorous, and 5% potassium (5-10-5) will be satisfactory.

When no directions are given for fertilizing house plants, Mr. McCalla says one-quarter of a teaspoonful of fertilizer to a 5-inch pot is a good guide. A larger pot will need slightly more. Plants should not be fertilized more than once every two or three weeks. The liquid or soluble crystal types of fertilizers are recommended for quick response. It should be remembered, however, that an excess of liquid or soluble fertilizer is more harmful than the common powder form, which dissolves more slowly.

NOTICE

In respect to Section 3 (1), The Public Contributions Act, Chapter 72, Revised Statutes of Alberta:

"No organization (person, association of persons, or a corporation) shall conduct a campaign to obtain funds for a charitable purpose unless it is authorized to do so."

"Charitable purpose" includes any benevolent, philanthropic, patriotic, artistic, athletic, recreational or civic purpose and any purpose that has as its object the promotion or provision of a public service.

Further information and application forms are available from the Department of Public Welfare, Executive Building, 109th Street and Jasper Avenue, Edmonton, Alberta.

MAIDEN FLIGHT. The Daily Express Air Rider, built from the first do-it-yourself hovercraft kit available in Britain, was satisfactorily put through its paces, despite a couple of holes in its air cushion, at the historic Battle of Britain airfield at Biggin Hill, in Kent, southern England, recently.

The craft, made by Hover-Air of Peterborough, in the English Midlands, is powered by three motor cycle engines—one for hover power and two at the back for forward thrust. The kit enables the handyman to assemble a complete hull—and many at present are being constructed in garages and garden sheds! In order to stimulate the growth of this new form of transport, the Daily Express and the Hover-club of Britain are considering a big international hover race in the summer of 1967, the first to be run under proper racing rules anywhere in the world.

NEW SCOTTISH BRIDGE. The Tay road bridge, opened last fall stretches across the river Tay to link Newport in Fife on the south side with the city of Dundee in Angus.

The bridge, which is 7,356 feet long, is supported on 42 piers, most of them 180 feet apart but widening to 250 feet to span the two main navigation channels. A 10-foot wide central promenade divides the dual carriageway, and two observation platforms have been cantilevered over the road to give views of the Tay estuary.

U.C.W. MEETING

The general meeting of the Champion U.C.W. was held in the church basement with 21 members in attendance. Mrs. Bess Silver gave the devotional, her subject being What Do We Believe In. Financial report was given, and the report from Sunshine convener, Mrs. Dunipace was read.

Old business was dealt with after which Mrs. Kurtz, president for 1967 took the chair to conduct new business. It was decided to go over the church cleaning list to be sure that it is up to date. Unit one will help to cover books at the public library as a project for this year.

It was decided that the U.C.W. would serve lunch at the Rosander auction sale to be held on Feb. 18th. Unit 4 volunteered to convene. The U.C.W. were asked to cater to the Mueller-Ericksen wedding to be held on March 4th. It was decided to do this and Unit 2 is convening. It was decided to once again sponsor the Irish concert, this will be held on March 17, and Unit three will look after it. Unit three said that they would also look after the Grandmothers tea to be held on May 10.

It was decided to look into having the floors in the basement cleaned again. The allocation was discussed and it was decided that only half of the usual amount be paid this year, and this would enable the group to help pay off the new manse.

After adjournment, Rev. Fyke installed the new executive for 1967, they are as follows, President, Mrs. A. Kurtz; vice-president, Mrs. W. Rhodes; secretary and publicity, Mrs. D. Clifford; treasurer, Mrs. D. Deal; supply and welfare, Mrs. A. Vaage, Mrs. H. Ferguson, and Mrs. C. Rhodes; sunshine convener, Mrs. A. Dunipace; manse committee, Mrs. C. Miller; devotional, Mrs. V. Jordan; official board, Mrs. A. Kurtz.

Lunch served by Unit two brought the afternoon to a close.

ASSOCIATION OF GUIDES AND BROWNIES

The following Gold Cord Service Projects presented by Guide Captain Racille Ellis were approved by the association. Guides Laurie Ellis and Joan Bach to assist in the library once a week for four months and Guide Cheryl Adams to help at her grandmother's house once a week for an indefinite period.

A committee was formed to convene the Mother and Daughter Banquet to be held on Feb. 28 and will meet in the club room Jan. 24, at 3:30 p.m.

A history of the Girl Guide Movement in Champion is being forwarded to Commissioner Hayes. A Centennial Book on Guiding History in Alberta is being prepared and it is hoped all Guiding communities in the province will contribute to this project.

The next meeting will be held on March 14th.

Our Alberta Heritage
PIONEER
RANCH LIFE

How did it really feel to live on a pioneer Alberta ranch 70 years ago? Here are the words of one High River pioneer.

"A log or lumber house is built, then simply furnished. There are no elaborate meals or superfluous furniture. I like the endless riding over the prairie, the wind sweeping the grass, the herds moving from water to water, the fun of coyote hunting. I like the monotony and the change, the flannel shirts, the LIBERTY! Certainly, there were hardships to be endured, but the cheerful and optimistic outlook usually prevailed. The words just quoted were written in 1898 by Moira O'Neill, just one of those proud, enterprising women pioneers, whose independent spirit contributed so much to the heritage of OUR ALBERTA. Bi-lingualism For English Canada Only?

The "unity of diversity" called for by Premier Manning of Alberta in a recent address at Vancouver, B.C. is a logical and sensible approach to the problem that has arisen from Quebec's discontent with its role in Canada.

Although we do not think that Quebec's separatist groups are speaking for all six million residents of that province, the present federal government has taken Quebec's apparent unhappiness seriously enough to almost "go overboard" in its attempts to appease the French-speaking segment of Canada's population, as witness the encouragement of bi-lingualism in our civil service and in the armed forces and the fact that government news releases are now, to a far greater extent than formerly, printed in English and French. In fact, we've received at least both English and French. In fact, we've received at least two new releases from Ottawa printed only in French.

Some of the incidents occurring in Quebec would be amusing if it wasn't for the fact that they illustrate the seriousness of the effort to make Quebec a separate entity and French its only approved language. There is the story this week of the French commuter who wouldn't produce his railway ticket unless the conductor asked for it in French. This created an impasse when it turned out that the conductor only spoke English. The conductor then, quite rightly we think, had the commuter removed from the train for failing to produce his ticket. But at last report the commuter was continuing to ride the train without producing his ticket while the railway company was in the dilemma of trying, like the government, to appease the French-speaking Quebecers and at the same time respect the rights and seniority of its English-speaking conductors.

Bi-lingualism is only for English-speaking Canadians, apparently.

Different as Quebec may be, or may want to be, from the rest of Canada, this big and populous province should learn to accept its place as a province of Canada without special treatment or concessions.

Home Ec Speaks To Reid Hill W.I.

The January meeting of the Reid Hill W.I. was held at the home of Mrs. A. Sales, Thursday, Jan. 12, with Mrs. E. G. McPherson as assistant hostess. Mrs. Jack Marshall won the punctuality draw, after which the president, Mrs. C. L. Kuykendall opened the meeting. Assisting Mrs. Kuykendall was the treasurer, Mrs. J. French.

The auditor's report for the year was given by the treasurer, Mrs. C. Love.

Routine business matters were dealt with and Mrs. Deal was named to attend the District Conference at Medicine Hat Feb. 8 and 9, as delegate from Reid Hill. The date for the February meeting of the W.I. was changed to Feb. 14 so as not to conflict with the Conference and will be held at the home of Mrs. Love.

Mrs. Kuykendall was appointed to attend the Centennial Planning committee meeting in the Legion. Gifts were presented to Mrs. Kuykendall and Mrs. Sales for perfect attendance in 1966.

Roll call was answered by 10 members and one visitor with "An Old Fashioned Health Remedy."

At the conclusion of the business session of the meeting the president called on Miss Frances Ann Cullen, District Home Economist, who showed some very interesting film titled "One Day's Poison," which demonstrated the urgent need for constant vigilance in the handling and use of many apparently harmless drugs and medicines. Miss Cullen also spoke briefly to the meeting on her work throughout the district in home planning and decorating and other related subjects.

The new programs for 1967 were handed out and were well received. To conclude the afternoon's program a hot luncheon was served by the hostesses assisted by Mrs. Kuykendall.

We easily believe that which we wish.

IN MEMORIAM

MYERS— In loving memory of a dear Dad and Grandad, Percy Myers, who passed away Jan. 17, 1965.

He wished no one a last farewell Nor even said goodbye, He was gone before we knew it, And only God knows why. His busy hands are resting now, His work on earth is done, His worries are all over now, And his heavenly crown is won. Our hearts still ache with loneliness.

Our eyes shed many tears, God only knows how we miss him.

At the end of two long years, Sadly missed and always remembered by daughter Blanche, son-in-law Jerry and grandson Gary. 24-1x

Dear Homemakers,

People with an eye for the finer things in life have long recognized the elegance and versatility of leather. This year sueded and leathers seem to be particularly popular in men's and women's sportswear. With proper care, the Leathercare Limited suggests that your leather garments will give you many years of smart service.

DO'S AND DON'TS FOR THE CARE OF SUEDE AND LEATHER

1. Hang your garment on a correctly shaped hanger when it is not being worn.
2. Wipe dust off suede with a soft brush or sponge. Use a damp cloth on smooth leathers. Never use saddle soaps or polishes on fine leathers.
3. Do not store leather goods in air-starved closets or plastic bags. Leather will fade and the suede garments may mildew.
4. If you wish to press a garment, do not use a steam iron. Use the lowest setting and press very quickly to avoid over-heating. Use a heavy layer of brown paper between the garment and the warm iron.
5. Do not attempt spot cleaning with solvents or abrasives as these products often cause permanent damage to the article.
6. Do not launder leather either by hand or by machine. Have it cleaned by a professional leather cleaner, NOT a regular dry cleaner.
7. Do not rub spills—shake off

the excess liquid, blot spot gently, dry at room temperature. Leather will harden and shrink if dried by an artificial heater. After the spot has dried, it can often be cleaned off with a brush or a sponge.

8. Always make sure if the garment is real leather or an imitation. If it is synthetic be sure you supply your cleaner with the manufacturer's care instructions.

9. Always send both pieces of a two-piece leather or leather and knit outfit to be cleaned at the same time. This will ensure even colouring in the match-ups.

10. Garments with a small amount of leather trim can be handled well by a professional dry cleaner. Garments with a considerable amount of leather on them should be cleaned only by a professional leather cleaner who can guarantee his work.

Check to find out if the dry cleaner you patronize is properly equipped to handle sueded and leathers. The natural coloured leathers are the easiest to care for as there is no danger of the dye "running" when these garments are cleaned.

MISQUOTES

There are many stories of children misquoting the Lord's Prayer. A little girl in New York was heard praying: "And lead us not into Penn Station." And a little boy gave this version: "Harold be Thy name."

Another youngster said, "Our Father, who art in Heaven, how did you know my name?"

The three chaps with 13 year-old Roger Douville are not giants by any means but the comparison does leave one thinking that Roger's mother, Mrs. Ernie Douville, had a big chore creating a small uniform for her son. Along the line are Cadet L/C David Foster, Cadet L/C Pete Kozlowski and Cadet Sgt. Roy Mulhall.
